## Focused on ceramics' expertise

Almas Ceram Company, drawing on its unique expertise and extensive experience in the ceramic industry, stands today as one of the most reputable brands in the Middle East for porcelain and ceramic wall and floor tiles. Utilizing advanced technologies in modern factories located in Iran, we produce over 2.15 million square meters of world-class tiles every year.

Since our launch in 2012, Almas Ceram has expanded its presence internationally, exporting products to more than 13 countries through a robust operational network—a true symbol of Iranian industrial maturity and global trust in the Almas Ceram brand.

## **Reliable Ceramic Solutions for Real- World Projects**

At Almas Ceram, we collaborate closely with architects and interior designers to address the actual needs of modern construction and interior projects. Our collections are developed through a careful process—drawing inspiration from nature, tailored market research, and ongoing feedback from professionals in the field. Every tile and surface is designed for both performance and aesthetics, ensuring consistent quality, durability, and versatility for a wide variety of applications.

We support our clients with practical solutions and transparent information, making it easier to specify, plan, and produce products with confidence.

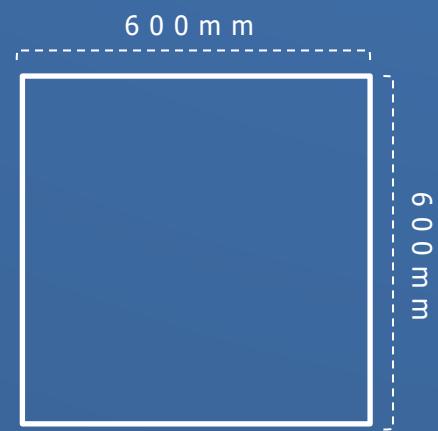

## Why Choose Our White Body Tiles?

- Pure white clay composition for vibrant and true glaze colors
- Suitable for walls and floors in all interiors
- Available in matte and glossy (trans) finishes
- Excellent dimensional stability and easy installation
- A wide range of sizes to maximize design flexibility

Collection

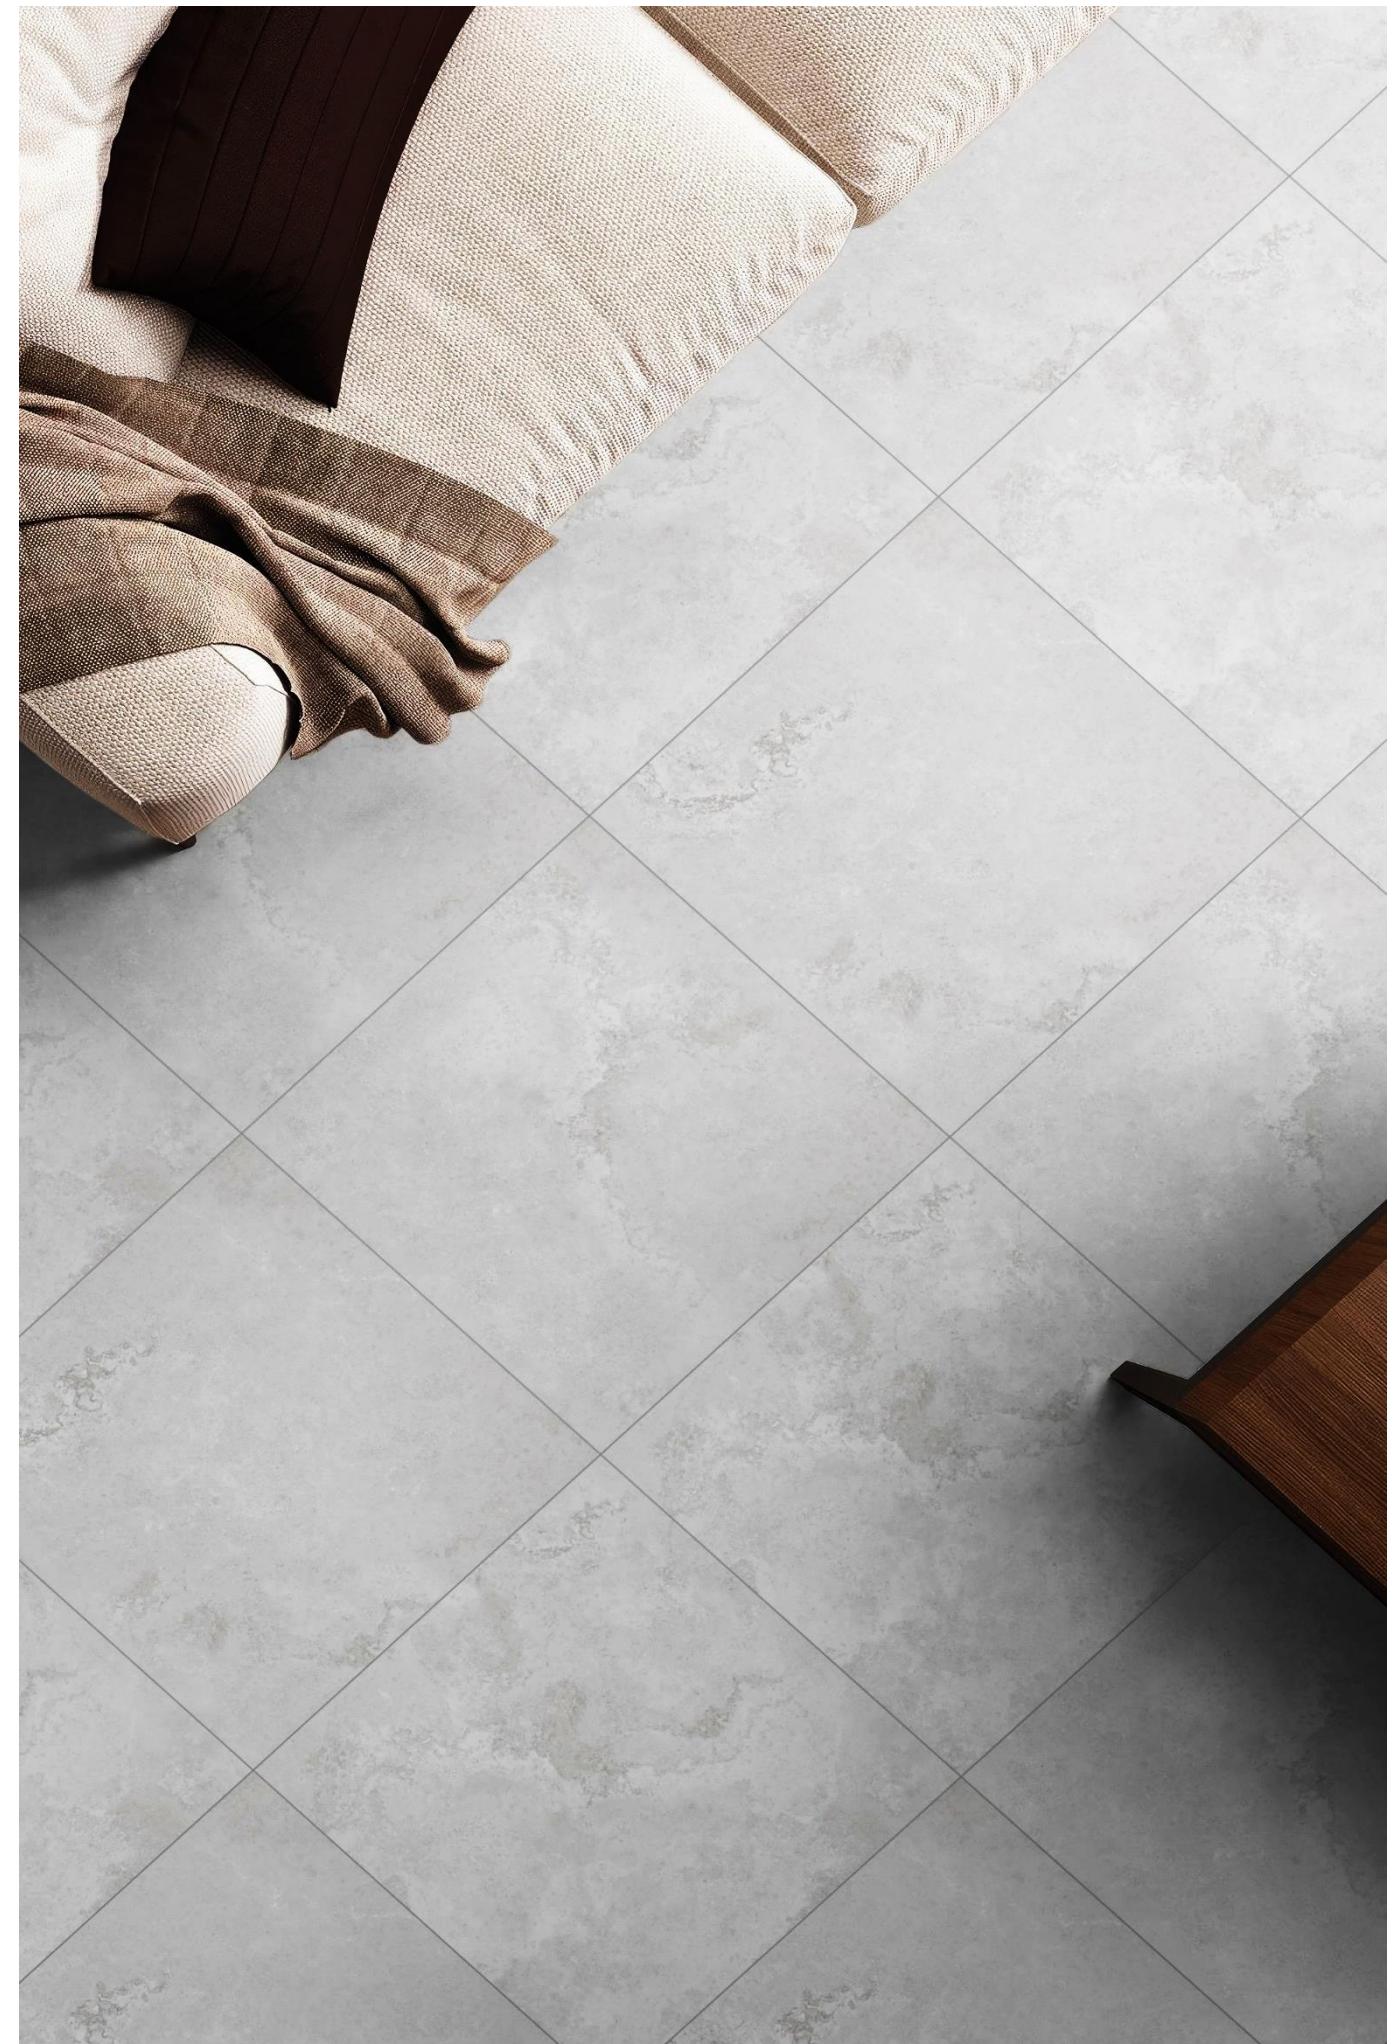

## Matte Finish

Effortless Modernity: Matte **60x60** Series

Matte surface tiles by ALMAS CERAM represent true minimalism, offering spaces simplicity without unnecessary complexities. Their neutral hues and authentic textures provide an excellent option for achieving modern and minimalist atmospheres. Adaptable to a range of environments—whether residential or commercial—this collection delivers subtle elegance and seamless integration into both contemporary and classic designs.

## Transparent Finish

Vivid Brilliance: Glossy **60x120** Series

Glossy (Trans) surface tiles by ALMAS CERAM bring luminous clarity and a refined sense of brightness to any setting. With their highly reflective glaze and transparent finish, these tiles amplify natural and artificial light, visually expanding interiors while preserving the brilliance of color and pattern beneath. Ideal for both residential and commercial spaces, this collection creates a sophisticated ambiance and enhances modern, luxurious, and dynamic atmospheres with a vibrant, polished appeal.

## **Vivid Brilliance:**

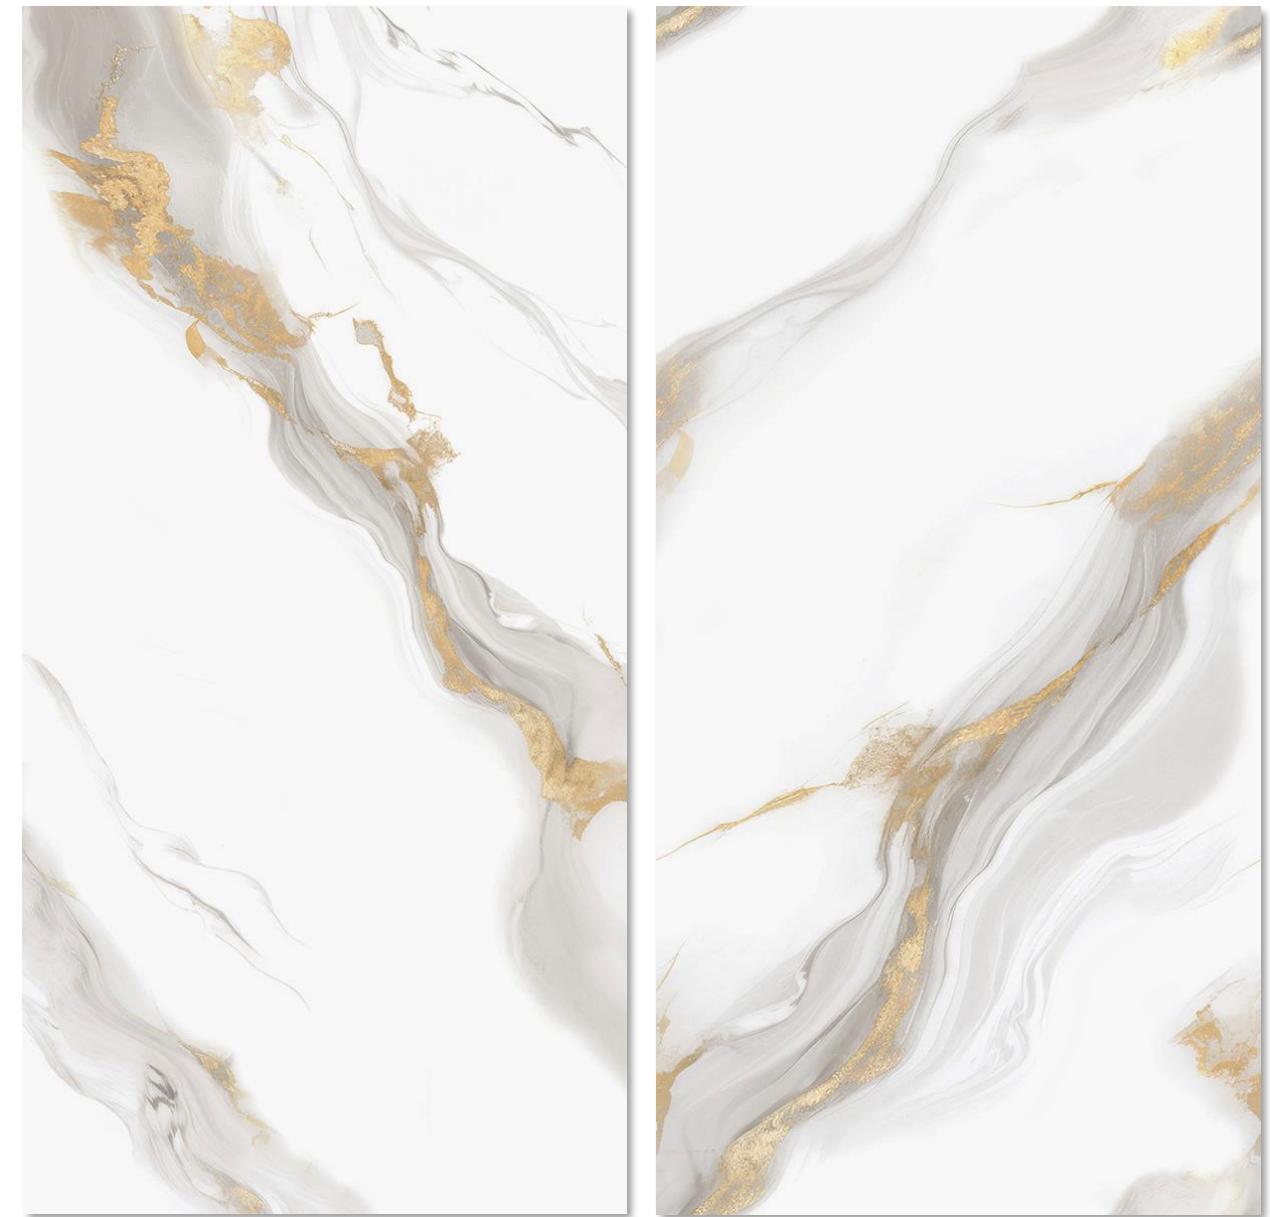

### Glossy(Transparent) **60x120** Series

Imbue your spaces with brilliance and luminous energy using our 60x120 glossy (trans) tiles. Their mirror-like glaze and luxurious proportions amplify light, color, and pattern for a dramatic visual impact on grand surfaces. Perfect for expansive settings that call for dynamic modernity and contemporary glamour, this series transforms interiors—making each area radiant, lively, and unmistakably sophisticated.

## Certified Excellence: Global Standards, Guaranteed Quality

Establishing itself among the finest modern industries, the 'MEDL' brand by 'ALMAS CERAM'—featuring premium white body tile collections produced at the advanced 'AKT factory'—sets a new standard in innovation and perfection.

Accredited with the integrated management system certifications from QMS Italy, one of Europe's leading certification bodies, 'AKT factory' guarantees every product aligns with global benchmarks:

- **ISO 9001:2015** for rigorous quality management, ensuring consistent product excellence and continual improvement.
- **ISO 14001:2015** for effective environmental management, focusing on sustainable practices that minimize ecological impact.
- **ISO 45001:2018** for advanced occupational health and safety management, prioritizing safe working conditions and risk prevention.
- **EN 14411:2016** certifying compliance with the European standard for ceramic tiles, encompassing those technical, safety, and performance criteria demanded by the discerning international market.

This commitment ensures that each ALMAS CERAM white body tile stands as a testament to superior craftsmanship and progressive industrial values, delivering reliability and distinction for the discerning market.

## TECHNICAL FEATURES

### 60x60 WHITE BODY TILES (BIIa) :

	Characteristic	AKT Lab Test Result	Standard / Limit
Dimensional Characteristics	Average Length (mm)	600.19 mm	± 0.6%
	Average Width (mm)	600.29 mm	± 0.6%
	Average Thickness (mm)	10.0 mm	± 5%
Surface Quality		95% Defect-Free	Min. 95%
Physical Properties	Water Absorption (%)	5.20%	3% - 6%
	Breaking Strength (N)	1822 N	Min. 1000 N
	Modulus of Rupture (N/mm <sup>2</sup> )	31.6 N/mm <sup>2</sup>	Min. 22 N/mm <sup>2</sup>
	Abrasion Resistance	OK	Min. Class 1
Chemical Properties	Crazing Resistance	OK	No Crazing
	Stain Resistance	Class 4	Min. Class 3
	Chemical & Pool Salt Resistance	Class GB	Min. Class GB

### Key Takeaways :

- Mechanical Strength:** The breaking strength and modulus of rupture far exceed the minimum requirements, indicating high durability and resistance to heavy loads.
- Chemical Resistance:** With a Class 4 stain resistance (the highest class in many standards) and a Class GB rating for chemicals, this tile is ideal for kitchens, bathrooms, and areas exposed to swimming pool salts.
- Indoor Floors:** The combination of optimal water absorption (5.2%), high strength, and excellent surface quality makes this a reliable and high-performance choice for all indoor floor applications.

**Note:** Please be aware that subtle color differences between batches are a natural result of the production process. To ensure visual harmony, we recommend comparing tile shades before installation.

## TECHNICAL FEATURES

### 60x120 WHITE BODY TILES (BIIa) :

	Characteristic	AKT Lab Test Result	Standard/Limit
Dimensional Characteristics	Average Length (mm)	1200.33 mm	±0.6%
	Average Width (mm)	600.20 mm	±0.6%
	Average Thickness (mm)	10.1 mm	±5%
	Surface Quality	95% Defect-Free	Min. 95%
Physical Properties	Water Absorption (%)	7.3%	6-10%
	Breaking Strength (N)	1986 N	Min. 1000 N
	Modulus of Rupture (N/mm <sup>2</sup> )	32.8 N/mm <sup>2</sup>	Min. 22 N/mm <sup>2</sup>
	Abrasion Resistance	OK	Min. Class 1
	Crazing Resistance	OK	No Crazing
Chemical Properties	Stain Resistance	Class 4	Min. Class 3
	Chemical & Pool Salt Resistance	Class GB	Min. Class GB

### Key Takeaways :

- Mechanical Performance:** Demonstrates exceptional strength with breaking load (1986N) and fracture modulus (32.8 N/mm<sup>2</sup>) significantly exceeding standard requirements.
- Chemical Resistance:** Class 4 stain resistance (highest class) and Class GB chemical resistance ensure durability in demanding environments.
- Dimensional Control:** All dimensional parameters fall within strict tolerance limits, ensuring installation consistency.
- Water Absorption:** 7.3% absorption rate places it in Group BIIb, making it suitable for indoor floor applications.

**Note:** Please be aware that subtle color differences between batches are a natural result of the production process. To ensure visual harmony, we recommend comparing tile shades before installation.

## TECHNICAL FEATURES

### 30x90 WHITE BODY TILES (BIII) :

	Characteristic	AKT Lab Test Result	Standard/Limit
Dimensional Characteristics	Average Length (mm)	900.25 mm	±0.6%
	Average Width (mm)	297.3 mm	±0.6%
	Average Thickness (mm)	9.25 mm	±5%
	Surface Quality	95% Defect-Free	Min. 95%
Physical Properties	Water Absorption (%)	15.3%	>10%
	Breaking Strength (N)	983 N	Min. 600 N
	Modulus of Rupture (N/mm <sup>2</sup> )	17.9 N/mm <sup>2</sup>	Min. 12 N/mm <sup>2</sup>
	Abrasion Resistance	OK	Min. Class 1
	Crazing Resistance	OK	No Crazing
Chemical Properties	Stain Resistance	Class 4	Min. Class 3
	Chemical & Pool Salt Resistance	Class GB	Min. Class GB

### Key Takeaways :

- Wall Tile Classification:** With 15.3% water absorption (Group BIII), this tile is specifically designed for indoor wall applications only.
- Mechanical Performance:** Breaking strength (983N) and Modulus of Rupture (17.9 N/mm<sup>2</sup>) comfortably exceed wall tile requirements.
- Surface Properties:** Class 4 stain resistance ensures easy maintenance and cleaning.
- Chemical Durability:** Class GB rating confirms resistance to household chemicals and pool environments.

**Note:** Please be aware that subtle color differences between batches are a natural result of the production process. To ensure visual harmony, we recommend comparing tile shades before installation.

## TECHNICAL FEATURES

### 40x40 WHITE BODY TILES (BIIb) :

Category	Characteristic	AKT Lab Test Result	Standard/Limit
Dimensional Characteristics	Average Length (mm)	400.10 mm	±0.6%
	Average Width (mm)	400.23 mm	±0.6%
	Average Thickness (mm)	13.85 mm	±5%
	Surface Quality	95% Defect-Free	Min. 95%
Physical Properties	Water Absorption (%)	7.1%	6-10%
	Breaking Strength (N)	1512 N	Min. 1000 N
	Modulus of Rupture (N/mm <sup>2</sup> )	29.3 N/mm <sup>2</sup>	Min. 22 N/mm <sup>2</sup>
	Abrasion Resistance	OK	Min. Class 1
	Crazing Resistance	OK	No Crazing
Chemical Properties	Stain Resistance	Class 4	Min. Class 3
	Chemical & Pool Salt Resistance	Class GB	Min. Class GB

### Key Takeaways :

- Indoor/outdoor Application:** With 7.1% water absorption (Group BIIb), this tile is primarily designed for indoor floor applications  
**Limited Outdoor Use Consideration:**
  - Not recommended for frost-prone areas or regions with freeze-thaw cycles.
  - Possible use in protected outdoor areas such as:  
Covered terraces , Sheltered balconies , Protected patios with proper drainage , Areas with mild climate conditions
- Mechanical Properties:** Strong breaking strength (1512N) and Modulus of Rupture (29.3 N/mm<sup>2</sup>) provide good durability.
- Chemical Resistance:** Class 4 stain resistance and Class GB chemical rating offer excellent protection against environmental elements.

**Note:** Please be aware that subtle color differences between batches are a natural result of the production process. To ensure visual harmony, we recommend comparing tile shades before installation.

# Product Guide

## TILE-LAYING RECOMMENDATIONS

- All ALMAS CERAM products may present natural variations in size, shade, and tone. Before installation, carefully verify the batch number, color, quality, and quantity of each piece; claims cannot be accepted after tiles are fixed.
- Lay out 2–3 square meters of tiles prior to installation to review overall technical and visual qualities and ensure adequate product supply for the job.
- The manufacturer's responsibility is limited to replacing defective material identified before installation. No claims of any nature will be considered after tiles are installed.
- If any issue is detected upon delivery, neither the installer nor the client should proceed with installation. Notify ALMAS CERAM promptly for assessment and resolution before any work begins.
- The substrate must be a flat, compact cement base. Use a leveling system to maintain tile flatness and prevent shifting during mortar setting, resulting in a perfectly even surface.
- Grout joint widths should follow either industry standards or the supervisor's direction; match grout color to the tile and always test colored grout on polished or lapped products. Highly adhesive pigments can be difficult to remove.
- Apply adhesives suitable for both the product and the substrate. Install tiles in the committed position; for rectified tiles, a minimum 2 mm joint is advised, wider gaps are preferable for large formats.
- After grouting, promptly wash away excess material with water and a sponge.

## Installation steps:

1. Adjust your tool to match the tile thickness.
  2. Insert crosheads and continue the layout.
  3. Place wedges in crosheads by hand.
  4. Tighten wedges with pliers for a level finish.
  5. Allow setting time as specified by the adhesive manufacturer.
  6. Remove crosheads by tapping with a rubber mallet or foot in the joint direction—never strike wedges.
- Failure to follow these installation instructions absolves the company of any post-installation claims.

# Product Guide

## Symbole's:

### FACES VARIATIONS

Random  
Faces

Variation in the number of faces of each product within each package.

### INDICATIONS FOR USE

WALL  
TILES

Designed for vertical surface installation on walls.

FLOOR  
TILES

Designed for horizontal surface installation on floors with higher durability requirements.

### Recommended Uses

DOMESTIC  
PURPOSE

Residential areas, and bathrooms

LIGHT  
COMMERCIAL  
TRAFFIC AREA

Public areas that are indoors and have moderate pedestrian traffic, such as restaurants, bars, and offices.

OUTDOOR

Suitable for exterior public areas with moderate foot traffic, including: exterior terraces, staircases, corridors, raised pavers, private gardens, and swimming pool or wellness surrounds.  
It is imperative to verify the slip-resistance rating of the product for its intended application, in accordance with all local building codes and safety standards.

## GUARANTEES AND COMPLAINTS:

ALMAS CERAM stands by the quality of its prime-grade ceramic products, in accordance with international standards. Should a buyer identify any quality or quantity issues, they must notify ALMAS CERAM in writing within eight days of receipt. Only prime quality products are covered by our guarantee; commercial or lower grades are not eligible for claims. Before installation,

any defective material must be retained for inspection and written authorization from ALMAS CERAM is required for returns or repairs. Once tiles are installed, guarantee claims are not valid for visible faults such as chips or sizing discrepancies. Discovery of any defect does not justify a claim for total replacement—the guarantee covers only the affected pieces as determined appropriate by ALMAS CERAM.
